Effective resolution against noise: identity and Wiener (γ chosen per σ)
σ / std of the velocity field
10^{-3}
10^{-2}
10^{-1}
wiener (σ > 0)
wiener, σ = 0: k_c = 51
identity (σ > 0)
identity, σ = 0: k_c = 15
target band k_c = 20-30
Effective resolution k_c (cycles per 128-px domain)
